PROFESSIONAL SUMMARY

BCA Final-Year Student and aspiring Full-Stack Web Developer with hands-on experience building responsive, database-driven web applications using HTML, CSS, JavaScript, Python, Django, and SQL. Skilled in frontend development, backend development, relational database design, and admin-panel development. Experienced in developing practical web projects with a focus on clean, functional, and user-friendly solutions. Passionate about software and web application development with a strong interest in building scalable full-stack solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Web Development: HTML5, CSS3, Django, Responsive Web Design

Databases: MySQL, SQLite3

Tools & Platforms: Git, GitHub, Visual Studio Code

AI / Modern Data: Generative AI Fundamentals, RAG, Vector Search, AI Agents

PROJECTS

College Event Registration System | Python, Django, SQLite, SQL, HTML, CSS

- Engineered a full-stack event registration platform in Django enabling students to browse, register for, and manage enrollment in college events end-to-end.
- Implemented secure user authentication and session management using Django's built-in auth framework, alongside a custom admin dashboard for managing events and registrations.
- Designed a normalized relational database schema (users, events, registrations) in SQLite/SQL and built CRUD workflows to maintain data integrity across all modules.
- Built a fully responsive front end with HTML5/CSS3 and maintained version control throughout development using Git/GitHub.

Personal Portfolio Website | HTML5, CSS3, JavaScript

- Designed and deployed a fully responsive personal portfolio site showcasing education, technical skills, projects, and certifications, with a dedicated resume-access section.
- Built structured, semantic navigation and layout components to ensure consistent usability and fast load times across devices.

Frontend Mini Projects | HTML, CSS, JavaScript

- Developed three interactive browser-based applications — Tic Tac Toe, Rock Paper Scissors, and a To-Do List — using vanilla JavaScript.
- Applied DOM manipulation, event-driven programming, and state management to build responsive, reliable game and utility logic.

EDUCATION

Bachelor of Computer Applications (BCA)

Rajiv Academy for Technology and Management, Agra — Affiliated with Dr. Bhimrao Ambedkar University | 2024 – 2027 (Expected)

CERTIFICATIONS

- MongoDB Learning Program** — ICT Academy, Government of India | Sep 2026
- YUVA AI For All** — TCS iON / IndiaAI | Aug 2026
- Python for Data Science** — Itronix Solutions | Jun 2026
- Planning a Generative AI Project** — AWS Training & Certification | Jun 2026
- AWS Technical Essentials** — AWS Training & Certification
- Smart India Hackathon 2025** — Participation
